On a warrant issued from the state attorney's office Sheriff W. H. Worthen, Deputy Sheriff P. S. Hariman and S. D. Atwood visited the store of Alex Leclerc on Mill street, Saturday and in the search located a box containing several bottles of Jamaica ginger. At the same time Chief of Police O. H. The liquor found at the house was claimed by Leclerc to be for family use, but it was taken along with the Jamaica ginger and the owner placed under arrest. He was charged with selling, and furnishing and admitted to bail in the sum of \$300. Information will be filed and the case will probably be brought before the present term of court.

This will be an important meeting and a plan will be outlined for more effective work in the Sunday school.

Benefits of the Garage.

Prior to the erection of the C. H. Goss Co.'s Garage on Central street, automobile owners in New Hampshire and Vermont were handicapped in providing suitable winter quarters for their machines, adequate storage, painting, varnishing, and overhauling facilities not being found nearer than Boston.

Through its up-to-date unlimited facilities for handling this most discriminating trade, this new Garage has been responsible for diverting much of this rapidly increasing business to St. Johnsbury. This is evidenced by the fact that a score or more machines from New Hampshire and Vermont cities are now placed with the C. H. Goss Co. to put in readiness for the coming driving season. This, taken in connection with the local business, will give winter employment to a large number of men in their several departments.

Such a plant as this is a credit to the town besides being a revelation to the automobile owner, who is now afforded the desired service at his command.

Important Bank Hearing.

William S. Boynton, John T. Ritchie and Joseph Fairbanks were at Montpelier Wednesday evening to

attend an important hearing before the committee on banks of both the House and Senate on the bill prepared by the commission appointed by Governor Prouty to revise the banking laws of the State. The commission was composed of F. G. Howland of Montpelier, Olin Merrill of Enosburg Falls, and F. H. Farrington of Brandon.

John T. Ritchie was one of the speakers and reminded the committee that Vermont banks without failures which was an evidence of the value of the laws under which they had been operating. He made inquiries about that section of the proposed law which requires three trustees to certify to loans instead of approving the same. He believed it would be a hardship on the banks to require them to send three trustees into the western country to make a personal inspection of all securities. Mr. Howland explained that such was not the intent of the section. The idea was that the directors must exercise their best judgment on the most reliable information they have and must not go through the mere form of proving loans. They can secure this information without a personal examination of property.
